

## **The Vascular Laser:**

---

The Vascular Laser is for the treatment of:

- Spider Veins (face / legs)
- Rosacea
- Birthmarks
- Red or Brown Spots
- Freckles
- Sunspots
- Aging Spots

The Laser light energy shines through the skin and is absorbed inside the tiny little spider veins, or birthmarks causing the pinkness to stop. After the 1<sup>st</sup> treatment you will see a gradual fading away of the spider vein over the next 1-2 months.

Red and Brown spots such as freckles or sunspots can frequently be treated with just one visit.

Birthmarks may take several treatments depending on the extensiveness of the area.

All treatments are non-invasive with no needles or puncturing of the skin

Prices vary depending on the amount of time needed. A consultation would be necessary for an exact price.

The prices for the Vascular begin at \$150 per treatment.

Stretch Mark Removal is commonly treated by using two lasers, and each laser treatment costs approximately \$500 per treatment. An exact price quote will be offered during the patient's consultation and other remedies will be offered as stretch marks and scars vary per person.
